DESIRE TO SERVE—PLUS ABILITY

BLOOD DONORS

URGED TO REGISTER

Blairmore has accepted the responsibility of maintaining the clinic supervised by the Alberta Red Cross. We expect them to come here about September but unless we have a good quota of names in the next few days we will have to cancel our contract. Will all prospective donors please register at once with Mrs. J. R. Smith or Mrs. Vera Krokosky. The clinic will be here on a Saturday, so all miners are eligible.

THE COLEMAN RODEO

Coleman is all agog and appears in a gay western atmosphere for the second annual rodeo today and tomorrow afternoon, with parades for both days and dances and carnival attractions for evenings.

Besides many local and district contestants, riders from New Mexico on the south, Cochrane to the north, Armstrong, B.C., west, and Oklahoma, east, as well as Idaho, appear on the program.

A contest to elect the first rodeo queen ends at 10 o'clock tonight, and results should be known by midnight. Contestants are Misses Margaret McEllean, Mary Hopkins and Idah Arlett.

VACATION BIBLE SCHOOL

The Vacation Bible School recently held in Central United Church for the benefit of the children of the Community was so successfully brought to a close last Friday evening with an informal demonstration by the children of the songs, choruses and Bible verses, etc. they learned during the preceding two weeks. Of special interest was the choir of the school children for Jesus' sung by the entire school with four small children dressed to represent children of other lands. Some of the handicraft was also on display. The children and leaders were pleased to see so many parents and friends present despite the heat.

This year due to lack of experienced leadership there were only two departments instead of three as planned, the nine and ten year old juniors being included in the Primary department. Mrs. J. McKelvey acted as principal and also had charge of the Primary department, assisted by Irene Mudman, Kay Davidson, Shirley Montabetti and Elaine Emmerson. The Beginners' department was in charge of Mrs. H. Upham assisted by Mrs. Decoux, also Mrs. Radford, Charlotte Mudman, Bernice Marks, Gerdine Kemp and Margaret Kelly.

The leaders are very appreciative of the assistance given by the girls without whose wholehearted co-operation the school could not have been held. They also wish to thank all others who in various ways assisted in making possible for the children, two happy, helpful weeks of Vacation Bible School.

STAIN REMOVERS

A lemon cut into slices and boiled with clothes keeps them white and keeps out stains.

A tablespoon of turpentine boiled with the clothes will make them snowy white.

To remove an iodine stain from cotton or linen, cover with a soft paste of mustard mixed with water and let stand for a few hours. Every trace of iodine will be removed.

Moosyn Hadwell of Calgary, spent last weekend with his parents, Mr. and Mrs. T. Hadwell.

Mrs. J. Ryngaert returned to Bellevue following a visit to Calgary. While in the city she attended the funeral of Mrs. Gordon Savage on Wednesday.

COWLEY HAPPENINGS

Mr. and Mrs. Jack Graham of Pincher Creek were Sunday guests of Mr. and Mrs. Cecil Eton and family.

Mr. and Mrs. G. A. Neumann and son Kennedy of Twin Butte paid a week-end visit at the parental home of Mr. and Mrs. M. A. Murphy.

Mrs. Robert Welch and her small son of Warrar have returned home following a two-week visit at the home of her parents, Mr. and Mrs. H. S. Lunk.

Mr. and Mrs. Lapp of Regina, Saskatchewan, are visiting Mr. and Mrs. Percy Burles and family at their home in the Porcupine Hills district.

Robert, Fred of Chalfin, B.C., has returned home following a two-week visit here with his grandparents, Mr. and Mrs. M. A. Murphy.

Word is received of the birth of a son to Mr. and Mrs. C. Danbo's (nee Isabel Morrison) of Bellevue. This is the sixth child to bless this home, the first five being girls.

Miss Ann Herbig of Lundbreck is the guest of Miss Muriel Jones this week.

Miss Roberta Hewitt, who taught the school at Hasketh the past term, has returned home for the summer holidays. She was accompanied by a friend, Miss Muel Peterson, who will spend a few weeks as guest at the Hewitt ranch.

Mrs. Jack Jarrett of Kimberley is visiting at the parental home of Mr. and Mrs. Russell Smyth in the Tennessee district.

Mrs. Jim Smith Jr. of Lundbreck and her family of five children paid a visit to her parents, Mr. and Mrs. F. A. Tustler, on Friday of this week.

Florice and Lucile Lemire of Melton are on a vacation visit at the home of their mother and sister, Mr. and Mrs. Hector Lemire and family here.

H. C. Trist of Lundbreck who has been a patient in the Holy Cross hospital in Calgary for several weeks is regaining his health friends will be glad to learn.

Mrs. Alvin Murphy entertained a children's party at her home Friday afternoon in honor of her son Neil's fourth birthday. Mothers accompanied the who's and a right jolly time was had. Master Neil was the recipient of many nice gifts.

The funeral of Armand Thibart, second son of Mr. and Mrs. Donat Thibart, was held Friday morning, July 18, in St. Joseph's Roman Catholic church here with Rev. Father Violini assisted by Rev. Father Sullivan and

Miss Mary Gierulski and Irene Margeak of Blairmore are the standard bearers of their town in the contest of 12 candidates for queen of the Slavonic Festival which will be held at the Blairmore Arena on Aug. 9 and the Coleman Rodeo grounds on Aug. 10.

Miss Gierulski, left, who is queen candidate of the Polish people of her town was born at Blairmore where she is attending school. She is taking an active part in the festival choir and takes a great interest in sports activities.

While improvements at the Coleman are as yet uncompleted, the ladies' refreshment parlor was moved this week into the former roving, which has been redecorated, and the move will facilitate finishing alterations. The side door is now used as the main entrance to the hotel.

Miss Margeak is queen candidate of the Czechoslovak people. She was born at Blairmore where she attended high school and is at present working at the Turtle Mountain Playgrounds. She is taking part in the festival choir and the physical training group which will perform at the festival. Her favorite sport is swimming and softball and she enjoys dancing.

Rev. Father Leonard in charge. Pallbearers were Edward Murphy, Donald Murphy, Mike Yagos, Joe Jordan, Maurice Lemire and Leo Smith. A cortege of 75 cars followed the deceased to Fairview cemetery. Pincher Creek, where interment was made. He leaves to mourn his loss, father and mother; two brothers, Romeo and Rene, and three sisters, Mrs. Robert Hoppa (Juliet), Fernande and Raymond.

Announcement of the discovery is made by Dr. Alfred Marshak in Public Health Reports, official publication of the U. S. Public Health Service here. Dr. Marshak's studies were made under the federal health service's tuberculosis control division at The Rockefeller Institute for Medical Research.

The material "appears to retard the progress of the disease" in guinea pigs. Dr. Marshak cautiously stated. Its value in human tuberculosis is not stated and probably will not be known without further study.

Wash.—A new weapon against tuberculosis may have been found in long yellow crystals extracted from alichen popularly known as California Spanish moss.

Announcement of the discovery is made by Dr. Alfred Marshak in Public Health Reports, official publication of the U. S. Public Health Service here. Dr. Marshak's studies were made under the federal health service's tuberculosis control division at The Rockefeller Institute for Medical Research.

The material "appears to retard the progress of the disease" in guinea pigs. Dr. Marshak cautiously stated. Its value in human tuberculosis is not stated and probably will not be known without further study.

Modern winding-up technique affords some compensation to its present workingmans. It used to take two men guarding five hours each, three times a week, to roll over 400 feet of steel cable around three huge cylinders powering the mechanism. Attached to these cables are three loads of a total weight of 2½ tons, one load for the hour striking mechanism, the second for the chimes and the third for the hands.

Now an electric motor supplies the power at a cost of a few pence and does the job in 40 minutes.

Four dials 22½ feet in diameter are 150 feet above ground level and are electrically illuminating at night. Each of the minute hands is 14 feet long and weighs 224 pounds. In the course of a year they travel a distance of about 100 miles. The hour hands are nine feet long but are far heavier than the minute hands, being about 672 pounds each.

The pendulum "rob" weighs 448 pounds and the weights which drive the clock aggregate nearly 2½ tons.

It is frequently erroneously stated that Big Ben is controlled from the Greenwich Royal Observatory. Actually the clock reports its performance to Greenwich daily. An average yearly report by the astronomer royal shows that Big Ben's error on 180 days is less than two-thirds of a second.

Tickets for reserved seats are on sale at the Coleman Pharmacy and the public is urged to get reservations immediately as there is a limited number of seats at the Blairmore arena.

BIG BEN NEARLY 90

Big Ben is Britain's house of parliament, monarch among time-tellers, whose chimes are known in every corner of the world, ring as smoothly on its original mechanism today as it did when it was installed nearly 90 years ago.

This world-famous part of the Westminster landscape, which is not only the largest striking clock but the most accurate public clock in the world, takes its name from its 15½-ton tell upon which the house are struck. Its chime-striking was a joke. When parliament was discussing names, a member, with one eye on burly Sir Benjamin Hall, first commissioner of works, suddenly exclaimed, "Why not Big Ben?" There were roars of laughter. But the name has stuck through the years.

Big Ben of course has not accomplished the impossible. It has stopped on occasions and the world has stopped and taken notice. There was the time when a rat's nest in the works brought the clock-repairers who care for it running in double time to the rescue. Another occasion was when it was destroyed in 1944 for air raid injuries and a workman's hammer became wedged in vital parts.

Goethe knew this sentimental and far-reaching value of Big Ben. One night in 1940 the German radio broadcast that it had struck 13 times at midnight and Goethe's crack announcer said: "supernatural people interpreted this fact as an evil omen. But the more realistic Londoners assumed that the works of Big Ben must have been badly shaken by the bomb explosions in the London area."

But Goethe had misfired, he had been too clever. Messrs. Dent, clock-makers of Lough, who repaired Big Ben's installation and have fixed it through the years, promptly explained that Big Ben just cannot strike 13. Its mechanism will not let it.

Big Ben's punctuality is checked by a halfpenny for example. A tray is fixed about halfway down the pendulum which is 13 feet long and bobs once every two seconds. When the clock is losing slightly, a halfpenny is placed on the tray. This makes the pendulum vibrate slightly more quickly. If the clock is gaining, a halfpenny is removed from the tray.

Modern winding-up technique affords some compensation to its present workingmans. It used to take two men guarding five hours each, three times a week, to roll over 400 feet of steel cable around three huge cylinders powering the mechanism. Attached to these cables are three loads of a total weight of 2½ tons, one load for the hour striking mechanism, the second for the chimes and the third for the hands.

Now an electric motor supplies the power at a cost of a few pence and does the job in 40 minutes.

Four dials 22½ feet in diameter are 150 feet above ground level and are electrically illuminating at night. Each of the minute hands is 14 feet long and weighs 224 pounds. Left to right: Kathleen Nakoff, Vlasta Kallivoda, Vera Bock, Laura Kobewka. These are Coleman's standard bearers in the contest of 12 Para candidates for queen of the Slavonic festival, which will be held at Blairmore on Aug. 9th and at Coleman on Aug. 10th.

Miss Nakoff is the candidate of

the Russian people, Vlasta Kallivoda of the Czechoslovaks, Vera Bock of the Polish people and Laura Kobewka is the choice of the Ukrainians.

All four candidates are taking an interest in the preparations of the festival programme by their activity in the choir, dancing and physical training and are assuring

the public of a festival programme better than any show ever staged in the Crown Nest Pass.

Tickets for reserved seats are on sale at the Coleman Pharmacy and the public is urged to get reservations immediately as there is a limited number of seats at the Blairmore arena.

Reclamation Of Farm Lands

THE QUESTION OF THE INCREASED development of farm lands in Canada came up in the Dominion Parliament recently when it was announced that a plan was under consideration for such development in the next five years. This is a subject which has been widely discussed and which is of concern from a number of points of view. Although Canada has a great area, with much land which is suitable for agriculture, there is a relatively small amount of land actually under cultivation. With our present population there is no lack of farm land, but should an extensive immigration policy be undertaken, much land that is now not used, would be needed for farming.

Need For More Food Supplies

Another aspect of the question is that if the world remains at peace and present plans for the general raising of living standards are carried out, there will be need for increased supplies of food in the years to come. Canadian farmers are inclined to doubt the possibility of the growth of demand on the world market for their products, but a larger population here and a rise in living standards everywhere would provide wide markets for the products of our farms. Canada made very rapid advances in industry during the war and greatly increased her world trade. For some years there have been no surpluses of farm products here and if the world is not shaken by political or economic disaster, Canadians should be able to look forward to continued prosperity.

Work Of P.F.R.A. Is Well Known

The reclamation of waste land would provide farms for many of our citizens and add to the volume of our food production. Much has already been done in the Prairie Provinces through the work carried out under the Prairie Farm Rehabilitation Act, the value of which is well known to Western farmers. The present proposals are concerned mainly with the reclamation of dykelands in Nova Scotia and New Brunswick and flood control, drainage and irrigation in British Columbia. It would, however, include the clearing and breaking of new farm land all across Canada. Opinions on the question will be widely diversified, but at a time when Canada is growing in many other ways it would seem reasonable that the expansion of facilities for farming should be considered.

CHILD SURVIVES DREAD DISEASE, ONLY ONE LIVES IN A MILLION

GADSDEN, Ala.—Claudia Lauletta Starkey, three-months-old daughter of Mr. and Mrs. Claude Starkey of Gadsden, is one child in a million. Eleven-month-old Claudia is one of the few persons to survive Erythroblastosis, and the only one of four Starkey children to live through the dread ailment.

The three Starkey children, preceding Claudia died of the almost incurable blood malady on the 14th day after birth. In 1930 the young couple lost Julia Ann. The following year a son, Claude Jr., died. In 1938, Michael Anthony was born, only to die on his 19th day. Physicians were stumped.

But between the time of the death of the first Starkey child and the birth of Claudia, last Oct. 31, scientists had discovered the Rh factor. The blood of parents of children born with erythroblastosis, they found, had opposite Rh factors, one negative and the other positive.

If the mother's blood differed from

the child's, their blood "fought" throughout pregnancy. But, they figured, if the blood of a child threatened with the disease could be classified soon enough, and a transfusion of matching blood made, its chances for life could be greatly increased.

Finally, said Mrs. Starkey, to have a negative Rh factor, her husband had a positive one.

Plans for the battle for Claudia's life were made months ahead. Minutes after her arrival at a Birmingham hospital, she was found to have a positive Rh factor, matching her father's. Eight hours after birth, the blood was pumped from the child and fresh blood of the proper type injected in her veins.

The first weeks of Claudia's life were suspense-laden, but when she passed the fatal 10th day science related and declared another victory. Today Claudia is a lively, beautiful, healthy child, destined her mother says to "some day be called, 'Mrs. President'."

TO PREVENT "SHACK TOWNS"

VICTORIA.—To prevent "shack towns" springing up on the fringes of some interior cities, British Columbia has notified registrars to set up a control area in unorganized territory surrounding Vernon and Kelowna, B.C., in the Okanagan fruit-growing area.

The regulations will not take effect until after public hearings have been held in the two cities. Inspectors in these centres will enforce the regulations, with the right of appeal to boards consisting of a government agent, a city council member and three land-owners.

FOUND NO CHINESE

TORONTO.—Mortuary squad officers frankly confessed they never were so surprised as when in a raid in Toronto's Chinatown they arrested 19 men—and there was not a Chinese to be found among them. Three were charged with keeping a common gaming house, 16 with being found in.

Dry content of a kernel of corn is 80 per cent. carbohydrate.

KIDNEY ACIDS Rob your Rest..

Many people never seem to get a good night's rest. They turn and toss—blame it on "nerves"—when it may be their kidneys. Healthy kidneys filter poisons and excess acids from the blood. If they fail and impurities stay in the system, you will restless sleep. If you don't rest well get and use Dodd's Kidney Pills. Dodd's help the kidneys so that you can rest better—and feel better.

STOP the ITCH of Insect Bites

GEMS OF THOUGHT

TRUE WEALTH

To have what we want is riches, but to be able to do without is power.—George MacDonald.

My riches consist not in the extent of my possessions, but in the fewness of my wants.—Joseph Brotherton.

Keep down as much as you can the standard of your wants, for in this lies a great secret of manliness, true wealth, and happiness.—William E. Gladstone.

Love a little more. Be faithful a little more. Serve a little more. And then watch God reveal himself to you in a larger and lovelier way.—Robert Newwood.

Rest assured that He in whom dwelleth all life, health, and holiness, will supply all your needs according to His riches in glory.—Mary Baker Eddy.

Charge them that are rich in this world, that they be not high-minded, nor trust in uncertain riches, but in the living God, who giveth us richly all things to enjoy.—1 Timothy 6:17.

Skyscraper, strongholds, 10 to 15 stories high, featured the skylines of medieval Italian cities.

YOUNG PIONEER.—Youngest passenger ever to sail for the Arctic, six-week-old Laren Scott is shown in the arms of her mother, Mrs. Allan Scott, who is going on to Nanaimo to Southampton Island, where her husband is to head a Hudson's Bay Co. post.

FUNNY And OTHERWISE

Teacher (questioning the infants' class after the lesson on the Creation, in which she had explained that man was considered more important than animals): "Now tell me, what did God make man more important than?"
Little boy (aged 5): "Ladies, miss."

The film actor, married and divorced five times in three years, came to the registrar with his sixth bride. It was the same registrar who had married the actor on previous occasions.
After the ceremony, the actor reached into his wallet, but the registrar waved the money aside. "Not this time," he said. "This one is on the house."

"I hear that you and Maggie have been reconciled and are to be married after all," said McPherson.

"Quite right," replied McIntosh. "You see, Maggie has put up with me and we couldn't get the engagement ring off her finger."

Little Joan was paying her first visit to her unmarried aunt, who had strong views on how a small girl should behave. As a result, Joan was far from happy.

"Well, my dear," said auntie.

"You look so sad; you must be homesick."

"No, I'm not," said Joan frankly. "I'm here sick."

"Your wife is a very systematic woman, isn't she?" asked Robinson.

"Yes, very," replied Smith. "She works on the theory that you can find whatever you want when you don't want it by looking where it wouldn't be if you did want it."

Magistrate—You are sentenced to pay a fine of 10 guineas, plus five guineas costs. Have you anything to say?
Offender—Rather. And if you'll promise not to increase the fine, I'll say it.

Wife—George, dear, would you mind helping me with a little bit of arithmetic?
Husband—Not at all.

Wife—Well, if we pay the cook all the wages she wants, do you think we'll have enough money left to buy anything for her to cook?

"I've just been congratulating Colonel Blaise," said a guest at a luncheon. "He's been appointed governor of a prison."

"Really?" asked his pretty neighbor. "Now, for a job like that does one need influence, or does one just start as a convict and rise from the ranks?"

After the christening the vicar complimented the parents on the fact that their baby did not cry during the ceremony.

"Well, you see," explained the proud mother, "we've been getting him used to it with a watering can."

Having a rather long and startling message to send home and just enough funds to pay for a 10-word telegram, the man wrote as follows:

"Bruises hurt, erased a Ford erected analysis hurt infectious dead."

Here's what he meant:

"Bruce is hurt, he raced a Ford, he wrecked it, and Alice is hurt, in fact she's dead."

STARTED SOMETHING

Two barbers named Wood and Stone were standing on a street corner. A pretty girl passed by. Wood turned to Stone, Stone turned to Wood. They both turned to rubber and the girl turned into a beauty shop.

The hurdy-gurdy was invented in France in the 15th century.

Canadian Exports At Peacetime Peak

OTTAWA.—Canadian exports are running 18 per cent. higher this year than last and well over three times the 1938 total. Dollar volume of goods shipped up to the end of May was \$1,155.8 millions compared with \$896.1 millions for the same period in 1946 and \$321.1 millions in 1938.

May exports were valued at \$257.8 millions, the greatest dollar value since the last month of the war, August, 1945. It is \$74.9 millions more than April and over the first five months, represents an average increase of \$70.8 millions over last year.

The all-important buying by the United States showed a drop at \$79.8 millions from the preceding monthly average. However, this is still \$7.5 millions higher than in May, 1946. Thus, for the first time since March, 1945, exports to the United Kingdom exceeded those to the United States.

The greatest single increase in May was registered by the \$90.5 millions we shipped to Great Britain. This is more than double the \$45.1 million exported in April and \$35.8 million higher than in May, 1946. The figure for the first five months of 1947 is \$276.4 millions (\$235.5 millions a year ago).

This kind of an advance occurred almost clear across the board within the Commonwealth.

South Africa for example has bought from us 50 per cent. more than last year; Australia and New Zealand purchases are almost double what they were in 1946. Newfoundland is buying one-third more while the British West Indies buying jumped from \$19.1 millions up to May last year to \$33 millions so far this year.

In addition, exports to Europe are at a higher level than at any other month. France is buying at about the same rate; Netherlands purchases up about 30 per cent. Belgium, buying dropped to about half the 1946 rate, probably because her Canadian loan is running out.

Plans Salt Factory For Northern Alberta

EDMONTON.—Plans are under way for a \$500,000 salt factory about 100 miles northwest of Edmonton. Three firms associated with the project are Anglo-Canadian Oil, Home Oil Co. and the Calgary and Edmonton Corp.

The development resulted from discovery of salt beds of 1,000-foot thickness in the Elk Point district last year. The group has approximately 200,000 acres under a reservation permit.

WOULD BE POOR AD

The Fort William Times-Journal makes this comment: Figure skating experts, including Barbara Ann Scott, will practice for the Olympics during the summer at Schumacher in northern Ontario. We hope the expression does not get about that they are practising on natural ice.

WHEN YOU'RE LOW ON ENERGY

ONLY LIPTON'S BRISK-TASTING TEA GIVES YOU THAT FLAVOR-LIFT

You've never had a cup of tea like Lipton's—It's so delicious, so rich, so full-bodied, and, above all, so exhilarating! That's Lipton's FLAVOR-LIFT—and only Lipton's has it. For it's the blend that makes Lipton's—and Lipton's who make the blend. You'll notice this amazing FLAVOR-LIFT every time you have a cup of Lipton's brisk-tasting tea. You'll say it's wonderful... wonderful anytime, morning, noon and night. Try it! Ask for Lipton's the tea with the FLAVOR-LIFT, at your grocer's today!

MR. BRISK SAYS... ONE CUP OR TWO... LIPTON'S TEA BAGS FOR YOU!

HOLLAND MAY USE B.C. WORMS TO RECONDITION SOIL

VANCOUVER.—Earthworms bred in British Columbia may be used in the reclamation of war-ravaged Dutch soil. Leonard Ward, 47, who has specialized in worm culture since his discharge from the army hopes soon to be shipping worms to Holland. Worms are valuable agents for the removal of salt from the soil and there's a crying need for them in the Netherlands where in many districts the soil has become salt-impregnated.

OGDEN'S
Fine Cut
Rolls an A1
Cigarette

RICH, SPICY CINNAMON BUNS

Recipe

Dissolve 1 tsp. sugar in ¼ c. lukewarm water; add 1 envelope Royal Fast Rising Dry Yeast. Let mixture stand 10 min. Then stir well. Sift ¾ c. milk, add 3 lbs. shortening, ¼ c. sugar, ½ tsp. salt; cool to lukewarm. Add 2½ c. sifted flour to make a batter. Add yeast mixture and 1 beaten egg; beat well. Add 2½ c. sifted flour, or enough to make a soft dough. Knead lightly, place in greased bowl. Cover; set in warm place, free from draft. Let rise until doubled in bulk, about 2 hours. When slightly punched down, roll out into oblong piece, about ¼" thick. Brush with 3 lbs. melted shortening or butter. Sprinkle with ¾ c. brown sugar, 1½ tsp. cinnamon, ½ c. raisins. Roll up lengthwise in a tight roll; cut in 1" slices. Place outside up, 1" apart in greased shallow baking pan. Cover; let rise in warm place until light, about 1 hour. Bake in 425°F. oven about 20 minutes.

Canada's "Raving Beauty"

WORLD
HAPPENINGS
BRIEFLY TOLD

During the war, U-boats sank 14, 873,000 tons of Allied merchant shipping, it has been revealed in official figures.

At Swinton, Lancashire, coins, minted about 700 years ago were discovered in a sandpit by 14-year-old George Willett.

Reconstruction Minister Howe said in commons the time would come when Alberta's tar sands would be "very valuable" as a source of oil.

Norman Hartnell, dressmaker to the Queen, lost £2,000 (\$8,000) worth of jewels when his home was burgled for the third time.

A total of \$28,142,625 has been spent by the Canadian Government on four destroyers ordered from Halifax Shipyards Limited.

Britain's railway workers will receive wage increases and shorter hours under recommendations made by a court of inquiry set up by the labor ministry.

More than 750 timber workers from among displaced persons in the British and American occupation zones are coming to Canada to work in lumber camps.

Surgeon J. H. Bentley of Newcastle-on-Tyne, triumphed in a nine-year-old case when Brian Froggatt, born with a cleft palate and little hopes of speech, clearly recited a nursery rhyme.

LONDON.—Generalissimo Stalin has personally drawn up a plan to rebuild Moscow as a "harmonious architectural creation expressing the noble ideas of Communism," Moscow radio said.

Pet Puppy Chews
Race Winnings

FORT ERIE, Ont.—You could never convince Percy Detenbeck that a dog is man's best friend.

On money borrowed from his wife at the races, he wagered on a horse that romped home at long odds.

His wife cashed the bankroll in her nylon stockings, and the couple went home—dressed but happy—and to bed.

Came the dawn—and discovery that the family pet puppy in the night had chewed up the cash.

AUSTRALIAN HOLDS
RACE FOR LOVERBIRDS

Sixty-seven-year-old John Lucas of Sydney, Australia, has a flock of lovebirds for which he arranges a race-meeting every Saturday afternoon, says the Australian Weekly News. The track is measured in lengths of the kitchen table. The jockeys, the bookmaker and the starter are his prize-winning lovebirds. Mr. Lucas began training lovebirds to talk twenty-five years ago. When deafness prevented him from hearing them, he started to teach them tricks.

Foods Won't Fight

Nutritionists at Ottawa, in the National Health services, pool-pool the belief that certain foods, taken together, will "fight" in the stomach. They say that there is no reason why a meal shouldn't include both lobster and ice-cream, for example.

Healthful foods don't create mysterious poisons, simply because they are mixed. People with robust digestions may eat most foods quite happily. However, any two foods hard to digest will naturally cause just that much extra distress if eaten together in large quantities. The secret, say the experts, is to eat in moderation as well as to choose foods for nutritive value.

Watch Your Weight

The tendency of people past the age of 40 years to put on weight may or may not be a sign of continued good health, but health authorities warn that only a physician can be sure on that point, so care should be taken in any program for reducing weight. For instance, it is not always safe to indulge in strenuous exercise, all of a sudden, to take off the extra pounds. If the excess weight has been due, as it may be, to some organic disease, such exercise may only make this disease worse. In this, as in all health matters, National Health authorities advise—"See the family doctor."

Drinking Water

People doing average work in summer, drink about a gallon of water a day, and those doing strenuous physical work under the hottest conditions may drink up to two gallons. Perspiration robs the body of salt, as well as water, and medical authorities suggest that, in hot weather and when working in the heat, compensation may be found for this loss by eating plenty of salty foods, as well as drinking a little water at frequent intervals.

Respect The Sun

Reminder that too much sun can be harmful, is issued by National Health headquarters. Excessive exposure to sunlight can cause sunstroke, Canadians are reminded. Sunstroke, indicated by high fever, dizziness, is also a condition called "Heat Exhaustion," symptoms of

Seventy-Three Million
Coins Minted in 1946

OTTAWA.—The Royal Canadian Mint received 3,576 deposits of gold bullion from Canadian mining and other concerns during 1946, containing 2,952,245 ounces of fine gold and 372,595 ounces of fine silver, according to the annual report of the mint tabled in Commons by the Finance Minister, Hon. Douglas Abbott.

The net amount paid for this was \$94,662,727.

A total of 73,166,921 coins of all denominations was issued last year, a decrease from the 114,435,791, issued in 1945.

There has been no successful invasion of Britain since 1666; no civil war since 1660.

which are paleness, coldness and clamminess, and which call for care in keeping the patient warm. In both cases, a doctor should be called.

SCOTCH GIRL WILL
HAVE TOUGH TRIP

A slender dark-haired Scottish girl, in sweater and slacks, is off on the trail of Drake, Morgan and Kidd! She's Betty Swapp, the only girl member of the crew of the "Lonely Lady".... a 40-foot schooner which is to make a two-year voyage round the world. The "Lady's" skipper is George Osbourne, who caused such a sensation by his trip in the "Girl Pat" a few years before the war. Betty is 24, a poetess, and the daughter of a seafaring family. Shipper Osbourne chose her as the sixth member of his crew out of more than 1,000 applicants. It's going to be a tough trip in the tiny schooner... ranging from the Spanish Main to Cape Horn, and the Caribbean to the South Sea Islands, but the skipper knows that she won't let him down. The members of his crew must have courage, he says, and young Betty is as tough as they come!

CRIPPS CONFIRMS NATIONALIZATION OF INSURANCE IN U. K.

Sir Stafford Cripps, President of the Board of Trade, speaking before an important business group in London recently, again emphasized that the government has no intention of nationalizing the insurance business—a statement which he first made to the nation on the occasion of the introduction of the Assurance Companies Act to the House of Commons a year ago. He said, "the government has no intention of interfering with the transaction of insurance by private enterprise. It is the desire of the government that insurance should be, in the future as in the past, dealt with on an international basis and as business of an international character."

The Board of Trade President, in his talk which was delivered at the 150th Anniversary Dinner of the Norwich Union Insurance Society, stressed that the insurance business is a

THE PARTY FAVORITE among coffees is Maxwell House. It stimulates and cheers because it's Radiant Roasted to develop every last atom of goodness in its extra-rich blend.

I want to know

has it been a tough day?

You can take it in your stride when you are on the "young side"—but every man looks forward to the time when there are no tough days.

Call and see our representative and let him show you how to build a "retirement income" for the days when you will want to take it easy.

low cost life insurance since 1869.

FRANK J. LAMEY
District Representative

Kubik Block Phones 46 & 147

very important factor in world trade and in its effect upon the balance of payments. At the time when Britain was seriously concerned to make both ends meet in her balance accounts, he added, it is obviously of the greatest importance that the utmost should be done to stimulate all forms of invisible exports, of which insurance is a most important item. "This large and valuable invisible export of brains and business integrity is a very high tribute by the world at large to the standards and principles upon which British insurance is conducted," said Sir Stafford.

"Our reputation for general integrity and for fair dealing on the basis of the utmost good faith has induced millions of people all over the world to appreciate the value and security of British insurance. British insurance houses have served the people of this country well in the field of invisible exports, and in these difficult days for the balance of payments, we know that we can rely on them and upon their high and well-deserved international reputation to maintain the flow of this most valuable form of invisible exports."

Turning to the domestic situation, the speaker referred to "representations which had been received from the insurance interests as to insurance by those industries or services which are being brought into national as against private ownership." "It is no part of this government's policy," he declared, "that nationalized industries should not insure in the ordinary market. The government have every confidence in British insurance and of the national boards were to decide so to

insure, we should feel they had acquired a complete security in their risks payments. At the time when Britain because of the high opinion, we hold of British insurance."

SLAVONIC FESTIVAL

Plans are steadily going forward for the gigantic Slavonic festival and picnic to be held in the Pass on August 9 and 10. It is expected that hundreds from outside points as far as Drumheller and Ferns will be in attendance.

The festival will be held in the Blaimore arena on August 9th, and will present a program of folk songs and dances, with participation in national costume. The picnic is to be held on the rodeo grounds at Coleman on the 10th.

THE CANADIAN INDIANS

(Royal Bank of Canada.
Monthly Letter
(continued from last week)
Projects for Rehabilitation

It has been remarked that the Indians are natural-born conservationists of game and fish. There is evidence that they trapped in their aboriginal state, according to a rotating system which maintained the fur population. This was broken down upon the arrival of the white men. In recent years a determined effort has been made to assist the hunting Indians toward rehabilitation, and remarkable success has been achieved in protected areas.

The government has undertaken a number of special projects in accordance with needs in various parts of the country. These include fur development enterprises, planning agricultural operations with advice by competent instructors, and promotion of handicrafts.

Practically, Indian crafts are outmoded by modern gadgets; economically, they are still of high economic importance. Workers are keen to maintain the quality of their products, and are winning world wide recognition by their unique designs and fine artistry. An official in the Indian Affairs Branch is directly charged with promoting worthwhile handicraft projects and sale of the goods to the wholesale and retail trade. In addition to encouraging basketry, woodwork, carving, pottery, weaving, leather work and wrought-metal work, steps have been taken to promote another industry which has great possibilities, the cutting, polishing and mounting of native Canadian semi-precious stones. Indian women are enthusiastic about the Homemakers' Clubs which have brought noticeable improvement to their living conditions.

What Does The Future Hold?

There are two schools of thought about the future: one favors assimilation, the other seeks a separate Indian racial life with its own distinctive culture. The most pathetic cases are of Indians who fall between the two—Indians who have been weaned from their ancestral ways and have not gained the place they desire in this new order.

EVERYBODY'S BUSINESS

by
Don Graham

In the eyes of employers, "lack of initiative" is considered the most serious fault a worker can have. It is an insidious and dangerous fault.

For most of us, pride of achievement and desire for bigger earnings provide plenty of drive. But we may suffer from temporary loss of enthusiasm in our work due to illness, personal problems, or emotional upsets.

At such times it is desirable to take all possible measures to prevent these conditions from becoming chronic. The advice of a physician or close friend may help. So may a frank talk with your employer whose attitude will probably be very understanding.

Sometimes a man has little or no interest in his work. This may not be his fault. A change of job or additional responsibilities may be all he needs to make him "spark".

But far too many men are in a rut because they are just plain lazy. To them I can only say: *You'll be far happier if you give your job everything you've got!*

The life insurance business in Canada has grown to tremendous proportions because it renders a needed service and is efficiently managed. In 1946, approximately \$165,000,000 was paid out in life insurance benefits.

Perhaps it will help if we reduce the problem to a three-pronged choice. The Hon. James Glen, Minister of Mines and Resources, said a year ago, according to the Montreal Gazette: Either the government must purchase at public expense the additional lands and hunting and trapping rights for an Indian population of 128,000 or decide on an educational and welfare programme that would fit the Indians to enter into competition with the white man not only in hunting and trapping but in agriculture and industry. To these the newspaper added a third choice, one that would need time to work out, but one that could be worked out with goodwill on the part of the Indian and the rest of the Canadian population. That is to get the Indian off the reservation altogether and give him an opportunity to become a citizen in every sense of the word.

It will be admitted that absolute preservation of native laws and customs is impossible, surrounded as the few islands of Indians are by bustling modernity. Annihilation of native custom, on the other hand, would be too like the things Canada fought the

war to destroy. To find out the best course to be taken, a special joint committee of the Senate and the House of Commons is now in its second year of investigation. Unanimous and sympathetic interest has been expressed in Parliament, and it may be possible for progress to be made with changes and improvements without waiting for the final findings of the committee and a possible re-vamping of the Indian Act.

The Churches, which have been active in Indian work since the first settlement of Canada, are urging quick and decisive action. In March this year, the Anglican Church called on the government for "a clear statement of national policy" on Indian affairs. The Catholic brief, presented by a delegation headed by Cardinal McGuigan, Archbishop of Toronto, remarked: "One must not forget that many of the improvements which are now suggested would have been put into effect a long time ago if the people of Canada had been aware of their necessity, and if the Canadian Government had been more generous in appropriating funds for Indian education." Both Anglican and United

Churches asked for creation of a separate department to handle Indian affairs, increased grants for education, and modernization of the curriculum in Indian schools. The United Church recommended establishment of Indian education "on a completely non-sectarian basis" and deletion from the Indian Act of sections providing for the segregation of Indian children by religion.

SHERWIN-WILLIAMS PAINTS

Moderation

WILL SEE US THROUGH

Last year, in one of its several published statements, The House of Seagram said, "Canada's great record of price control was made possible by the wholehearted co-operation of the Canadian people with their Government's anti-inflation methods. This fine record should be maintained... by moderating our pleasures, by controlling unessential spending, we continue to serve our Nation and ourselves best."

That statement we repeat today. We need only march steadily ahead... with continued emphasis on those habits of moderation, self-control and commonsense which are so happily—and fortunately—characteristics of Canada, and Canadians.

Then this Nation will stand
secure on the road to its
yet greatest opportunities.

Men who Think of Tomorrow

Practice Moderation Today!

THE HOUSE OF SEAGRAM

World News In Pictures

FORT WILLIAM, ONT. GIRLS' PIPE BAND — Hailed as "the most beautiful pipers in the land" the Fort William, Ont., girls' pipe band was a big hit when they played at Hamilton, Ont. Laura Crowe, drummer, has a tough job in hot weather. The girls attended mass gathering of Scottish

pipe bands at Hamilton, Ont., and later moved off for a spot of sight-seeing at Niagara Falls, where scores of camera fans snapped Shirley Murphy, Mary Armstrong and Mae Roach.

TARGET FOR MYSTERY BULLETS—Mystery shots fired at car driven by Lawrence Parade, 19, of Toronto are being investigated by police. Parade and his wife, shown here, were driving through Kintore near London when he heard about eight shots as car passed him. Police check of residents of Kintore had established shots were fired. None hit Parade car.

WINS DIAMOND SCULLS AT HENLEY — Shown above receiving congratulations, John B. Kelly, Jr., won the Diamond Sculls of the Royal Henley regatta, to climax a 26-year campaign of revenge that started when his father was denied the right to compete in the 1920 event because he once was a bricklayer. The 20-year-old University of Pennsylvania student defeated Carl Fronsdal of Norway by eight lengths in eight minutes and 49 seconds. Kent School, Connecticut, won the Thames Challenge Rowing cup when its eight-man crew defeated Tabor Academy of Marion, Mass., in the all-American final.

PRAIRIE FLOODS STALL TRAINS AT BRANDON, MAN. — Prairie floods turned back this train at Brandon, Man., after the Red river went on a rampage. Mrs. Hazel Detenbeck of Bertie township near Fort Erie, a passenger, was going to visit her parents at Swan Lake, Man. She returned to her home when the trains couldn't get through. She said miles of prairie land are flooded.

FLYING SAUCERS, OR SPOTS BEFORE EYES?—The theory of Prof. F. S. Cotton of Sydney, Australia, that the "flying saucers" which many citizens of Canada and the U.S. claim to have seen, are nothing more or less than a visual phenomenon, has many persons doing some personal experimenting. The idea is to stare at a fixed point in a clear blue sky, and according to the professor, the red corpuscles of the blood, passing in front of the retina of the eye, give the impression of flying kitchenware. So these two young ladies are trying out the theory.

WED AFTER LITTLE ROW—Film Actress Joan Blondell, (above), and Michael Todd, producer, were married at Las Vegas, Nev., on July 5, in a surprise ceremony that took place shortly after they became reconciled from a recent little spat.

WILL DO EVERYTHING LEGALLY TO KEEP COMMUNISTS OFF LAKE SHIPS — Seamen's union representatives will have to take affidavits stating they're not Communists before boarding his ships, states Capt. R. S. Misner, president of steamship line. Shown is freighter Oster with escort.

Great Lakes navigation, peaceful since last summer's strike, threatens to become stormy again with barring of some union representatives from ships. Shown is the steamship S.S. Noronic, being pelted by strikers during last year's tie-up.

CAPT. R. SCOTT MISENER—President of the Sarnia and Colonial Steamships, who says he will allow no Communists to board his ships.

FINDS LOST HUSBAND SENTENCED TO DEATH—For six years, Mrs. Muriel Freuch, seen here, of Sunderland, Eng., mourned her Czech husband, who disappeared soon after their marriage. Now she has learned that Augustus Freuch, her husband, has been convicted as a Gestapo agent and condemned to be shot as a traitor in Prague.

BOYS—EVEN CLERGYMEN—WILL BE BOYS—Sliding into a base in a camp ball game, Rev. E. H. McLellan, of Oshawa, is tagged by Rev. W. A. Filer, Peterboro. Their ball game is being played on a 25-acre property at Big Bay Point, Lake Simcoe, where Anglican clergy have set up a summer camp and provided holidays at about five dollars a week for a family.

ENDS MAN'S MONOPOLY—Bachelor Lake, about 100 miles north of Rouyn in the Chibougamau area of Quebec where the search is on for gold, may have to change its name. It's not for bachelors only any more. Mildred (Kit) Jourdin, former wartime Wren and strictly feminine at 97 pounds, invaded Bachelor Lake when she flew in with her fiancé, Duke Orr, veteran bush pilot, and caught a 10-pound pike while Orr unloaded prospector's supplies. Believed the first white woman to enter the Bachelor Lake area, Miss Jourdin lives in Rouyn with her father, one of the pioneers of the Rouyn north country.

AT TEACHERS' SUMMER MUSIC SCHOOL — Saxophone and drum are the instruments chosen by Sister M. Stanislaus, (left), of Kitchener, and Sister M. Patricia, of Galt for their summer music course. Over 90 teachers from all over Ontario are attending the course in Toronto.

Excess Profits Tax Act Standard Profits Claims

NOTICE

Recent amendments to the above Act provide that all standard profits claims must be filed with the Department of National Revenue before 1st September, 1947.

All applications are required to be in such form and contain such information as may be prescribed by the Minister and the Minister may reject an application that is not made in such form or that does not contain such information.

The prescribed forms (S.P.1) are available at all District Income Tax offices of the Dominion Government.

All pertinent information required on the form must be included or attached thereto in schedule form. Tentative or incomplete forms or those filed after 31st August, 1947, will not be accepted.

Definitely superior as a fuel for low compression tractors, Imperial Tractor Distillate gives you more power at the draw bar. When you hit a tough spot Imperial Tractor Distillate pulls you through. There's a reason for this: the high octane rating of Imperial Tractor Distillate. Get a supply from your Imperial Agent—you'll agree it's a noticeably better fuel.

For high compression tractors
ESSO GASOLINE

For medium compression tractors
ACTO GASOLINE
